29 Ramadhaan 1446 – 30 March 2025

CONFIRMATION OF THE HILAAL RELIANT ON ONLY THE CRITERIA OF THE SHARIAH

Today – Sunday 30 March 2025 – is Eid in Afghanistan. The Hilaal was sighted by innumerable people in Afghanistan despite the moon being about 4 and half hours, which according to the moron astronomers and their bootlicking molvis is *impossible*. Here is the report issued by the Supreme Court of the Imaarat of Afghanistan yesterday evening 29 March 2025:

(End of the Report)

The sighting was not an isolated incidence. Numerous people all over Afghanistan saw the *four hour* Hilaal. Thus the Sighting was confirmed on the basis of the Shariah's simple Mas'alah, namely the *Shahaadat (Testimony) of Aadil (not faasiq) Witnesses*. This is the only criterion acceptable to the Shariah. Muslims should divest their brains from all other factors which have no relevance in the Shariah. Adhere to the simple methods of the Shariah, then there will be no shaitaani problems and confusion.

The Shariah clinches every aspect of the Deen. The commands of Allah Ta'ala can never be overridden with the ways, techniques and ideas of 'scientists' regardless of the stupid 'certitude' the astronomers and the 'scientists' attach to their methods and calculations. All of them from the Shar'i perspective are Juhala (Morons), for only Juhala raise doubts in matters of Shar'i import. Commanding our Nabi (Sallallahu alayhi wasallam) to follow only the Shariah, Allah Ta'ala states in the Qur'aan Majeed:

*“Then, We have established you on the Shariah regarding
(all) matters. Therefore follow it (the Shariah), and do
not follow the vain desires of those who know not.”
(such as the moron astronomers and scientists).
(Al-Jaathiyah, Aayat 18)*
